

The New Gen ready board System is a world first expandable ready board system. The New Gen ready board comes paired with a CFL bulkhead and is fitted with an LED globe. The key feature that makes this ready board system unique is the “room extender” can be attached using a daisy chain method throughout various rooms in the house giving access to multiple plug points as well as a light. The room extenders are available in different cord lengths: 2.7m, 6.7m and 10.7m to ensure that there is enough cord for installation in different applications. The device plate at the back of the room extender makes installation easy & efficient as it can be done without the use of an electrician.

Part Number	Description	H (mm)	W (mm)	D(mm)	Cable Length
040-959	Room Extender Complete	257	240	83	2.7m
040-960	Room Extender Complete	257	240	83	6.7m
040-961	Room Extender Complete	257	240	83	10.7m
P/S060	Plug in Adaptor 2 x 16A / 6A Slimline	53	50	38	-

PLEASE NOTE:
 - The combined length of cables assembled in any chain should not exceed 25m.
 - The circuit should be connected to a Distribution board with a 16A circuit breaker.

Room Extender Mounting System

1) Mount the mounting plate to the wall using 3x6mm screw/plug.

2) Hook the first unit at the top as shown below and close it

3) Cable can be spooled at the back of the Room Extender to keep cable neat and tidy

4) Plug the first unit into the New Gen ready board

5) Repeat steps 1 and 2 and connect the second unit into the first unit as shown below
